Des Moines International Airport (DSM) officials are announcing that central Iowa air travelers now have access to Frontier Airline's service at its Milwaukee (MKE) hub. The first leg of the service from DSM to MKE is provided by Midwest Airlines. Connections made at MKE for selected destinations are on Frontier aircraft.

Some booking systems show the flight from DSM to MKE as a Frontier flight and some systems show it as a Frontier flight, provided by Midwest (Chautauqua) Airlines. All carry Frontier flight numbers and fares.
